

(a) Editable: two ways to amend the stale notes

field+selective ($O(K)$): recompute the field + top- K affected notes

red outline = recomputed; rest reused stale

erratum ($O(1)$): append a salient correction; reuse the whole prefix

amends the stale notes

(b) Composable: reposition + splice precompiled notes ($O(L)$); skip reprefill

precompiled in isolation

RoPE
reposition
